Except as otherwise specifically provided, the statutory provisions in Chs. 340 to 348, Wis. Stats., and Ch. Trans 305, Wis. Adm. Code, describing and defining regulations with respect to vehicles and traffic, exclusive of any provisions relating to penalties to be imposed and exclusive of any regulations for which the statutory penalty is a fine or term of imprisonment, are hereby adopted and by reference made a part of this chapter as if fully set forth herein. Any act required to be performed or prohibited by any statute incorporated herein by reference is required or prohibited by this chapter. Any future amendments, revisions or modifications of the statutes incorporated herein are intended to be made part of this chapter in order to secure uniform statewide regulation of traffic on the highways, streets and alleys of the State of Wisconsin.

§ 496-2. Traffic control devices; Official Traffic Map; prohibited signs and markers.

A. Duty of the Chief of Police to erect and install uniform traffic control devices. Whenever traffic regulations created by this chapter, including a State of Wisconsin traffic regulation adopted by reference in § 496-1 of this chapter, require the erection of traffic control devices for enforcement, the Chief of Police, with the cooperation of the Village Engineer, shall procure, erect and maintain uniform traffic control devices conforming to the Manual on Uniform Traffic Control Devices promulgated by the Wisconsin Department of Transportation, giving notice of such traffic regulations to the users of the streets and highways on which such regulations apply. Whenever state law grants discretion to local authorities in erecting or placement of a uniform traffic control device, devices shall be erected in such locations and in such a manner as in the judgment of the Chief of Police will carry out the purposes of this chapter and give adequate warning to users of the streets and highways of the Village.

All such restrictions and limitations set forth on said Official Traffic Map are hereby ratified and affirmed.

(2) Additions to map. The Village Board may from time to time make additions to or deletions from the Official Traffic Map, and the Chief of Police shall keep such Official Traffic Map current. Every addition to said Official Traffic Map made after March 1, 1985, shall indicate the number of the authorizing ordinance or resolution and the date the appropriate official traffic control device was erected, and every deletion shall indicate the number of the authorizing ordinance or resolution.

(3) Map to be maintained. A copy of the Official Traffic Map shall be maintained and displayed in the Municipal Building. The Chief of Police shall make appropriate authorized changes on said map within three working days after the appropriate official traffic control device is erected or removed, as the case may be.

(4) Violations prohibited. When official traffic control devices giving notice of the restrictions, prohibitions and limitations shown on the Official Traffic Map are erected and maintained in accordance with the provisions of this section, a violation of the restriction, prohibition or limitation shown on the Official Traffic Map shall be a violation of the provisions of this chapter.

C. Prohibited signs and markers in highways. No person other than an officer authorized by this chapter to erect and maintain official traffic control devices or his designee shall place within the limits of any street or highway maintained by the Village any sign, signal, marker, mark or monument unless permission is first obtained from the Chief of Police or the State Highway Commission. Such vehicle shall be removed by the operator, upon request of any police officer, to a position where parking, stopping or standing is not prohibited. Any police officer, after issuing a citation for illegal parking, stopping or standing of an unattended vehicle in violation of this chapter, is authorized to remove such vehicle to a position where parking is not prohibited. The officer may order a motor carrier holding a permit to perform vehicle towing services, a licensed motor vehicle salvage dealer or a licensed motor vehicle dealer which performs vehicle towing services to remove and store such vehicle in any storage garage or rental parking grounds or any facility of the person providing the towing services. In addition to other penalties provided by § 496-16 of this chapter, the owner or operator of a vehicle so removed shall pay the cost of towing and storage.

I. Registration record of vehicle as evidence. When any vehicle is found upon a street or highway in violation of any provision of this chapter regulating the stopping, standing or parking of vehicles and the identity of the operator cannot be determined, the owner, as shown by the ownership registration of the vehicle supplied by the Wisconsin Department of Transportation or a comparable authority of any other state, shall be subject to the appropriate penalty.

J. Unlawful removal of parking citations. No person other than the owner or operator thereof shall remove a Village parking ticket from a motor vehicle.

§ 496-6. Heavy traffic routes; heavy equipment. [Amended by Ord. No. 7-96]

A. Village heavy traffic routes established. Pursuant to § 349.17, Wis. Stats., the Village hereby designates all marked federal highways, state highways or county trunks and such Village streets as shall be so designated and established by ordinance and proper signing in the future as heavy traffic routes. Said heavy traffic route system shall be for the operation of all heavy traffic and shall also be known as "truck routes."

B. Definitions. As used in this section, the following terms shall have the meanings indicated:
HEAVY EQUIPMENT — Includes but is not limited to any steel-track-type equipment, backhoes/excavators, dozers, front end loaders, skid steers, etc.\textsuperscript{10}

HEAVY TRAFFIC — All vehicles or combination of vehicles, other than motor buses, designed or used for transporting property of any nature and having a gross weight of more than 15,000 pounds and also all vehicles not operating completely on pneumatic tires.

C. Regulation of weight. It shall be unlawful for any person to operate any motor vehicle whose weight is in excess of 15,000 pounds over any street in the Village which is not a county trunk, state highway or federal highway, or which has not been designated as a Village heavy traffic or truck route, except as follows:

(1) For the purpose of obtaining, moving or delivering supplies, commodities or equipment, any such vehicle may deviate from the heavy traffic route system if such vehicle travels between the nearest heavy traffic route and its destination by the shortest, most practicable route available.

(2) For the purpose of going to and from the place the vehicle is kept by the owner and/or operator if such location cannot be reached by use of the heavy traffic or truck route system.

(3) For the purpose of going to and from points within the Village to have the vehicle serviced or repaired or while being tested if such location cannot be reached by use of the heavy traffic or truck route system.

(4) For the purpose of performing maintenance on Village streets or installations, snow removal, street cleaning or refuse removal or curbside pickup and for the passage of vehicles involved in maintenance or repair of public utility installations within the Village.

Any Village streets designated as heavy traffic or truck routes in the future shall be properly signed and posted on a map maintained in the Village Clerk's office.

E. Temporary prohibition or regulation.

(1) Pursuant to § 349.16, Wis. Stats., the Public Works Manager may:

(b) Impose special weight limitations on bridges or culverts when it is judged that such bridge or culvert cannot safely sustain the maximum weight permitted by statute.

\textsuperscript{10} Editor's Note: Added at time of adoption of Code (see Ch. I, General Provisions, Art. II).
(c) Order the owner or operator of any vehicle being operated on a Village street to suspend operation if in the judgment of the Public Works Manager such vehicle is causing or is likely to cause injury to such Village street or is visibly injuring the permanence thereof or the public investment therein.11
